

Libertadeltomundo – Travel Your Way

Website's Notes

➤ First page of the website

1- Leave a review =>

Please confirm that the arrow is linked with Libertad's **TripAdvisor** page/review section (Libertad Del Mundo) and the comment will be uploaded directly there.

➤ The EVENT PAGE

1. Please correct the calendar dates – the order should be from a **past date** TO a **future date**- example; June 15 should not be before June 10 (the second cell).
2. Please replace the blue button with "**Book**" button.
3. Please ensure that the **cells format** of the booking sub-screen are match with the **cell title** (example; phone number accepts only numbers, Qty. accepts only numbers, email accepts only letters etc.)
4. Please change the word confirmation to "**Confirm**".
5. Please add to the "**Confirm**" button the function of opening a new page/screen that contains the following data: (summary of the booked event)
 - event name
 - event date
 - Qty. (quantity)
 - Total price (event price x no. of people)
 - **Terms and conditions**/cancellation policy - about three lines with check box (like this ☐) **the user should check** before moves to the payment process.
 - **Add "Confirm & Pay"** button at the end of the screen/page – this button opens the "**payment methods**" page.
6. Please add a screen or page titled "**Payment methods**" (*See the picture below*) that includes;
 1. different payment options, **visa, master card, PayPal** the user can **select from**
 2. Cards' details screen
 3. Add for each Payment a **confirmation email / receipt should** be sent to the user's email and contains (Product description, Qty., receipt no., date paid, payment method, Libertad name and logo, person name etc.)

 - **Add “Pay secure”** button at the end
6. **“Pay secure”** button opens a new page/screen titled **“Payment methods”** (similar to the picture below) and includes;
 - different payment options, **visa, master card, PayPal** the user can **select from**
 - Cards’ details screen
 - Add for each Payment a **confirmation email / receipt should** be sent to the user’s email and contains (Product description, Qty., receipt no., date paid, payment method, Libertad name and logo, person name etc.)

➤ Accommodation page

- Please correct the dates sequence - the check-out date should be **ONLY** for dates that coming **after** the check-in date. (Example: Check out could NOT be July 15 while the check is July 20).
- Please confirm that the **database** of the recommended accommodation (second part of the page) is **the approved** and listed property from “listing your property” part.
- Please consider that the recommended accommodation (second part of the page) presented **based on the entered data in the search, and randomly IF no data has entered in the search or the once the page is opened.**
- Please add a condition that the user SHOULD be **registered** first in order to add the property in the “listing your property” part.
- Please add for “listing your property” part the following:
 1. Add section for property “**Description**” (written content)
 2. **Link the location with google maps**
 3. Add for the cell “no. of rooms” another cell for “capacity /no. of people).
 4. **Add calendar** for the available dates for renting (a calendar that the owner can select the available dates for renting the place).
 5. **Add function that Notify us once the item sent for approval**
 6. **Add function that allow the property OWNER (registered person) to update frequently the calendar based on its availability, and the price of the hotel.**
- Please consider that **each recommended accommodation opens a page** (similar to the tours page), and includes place info (name, location, Description, capacity of the place- no. of people, and pictures of the place) with **Book** button at the end of the page.
 - Add to the “**Book**” button a new screen/page has cells for entering reservation data : **(first name, last name, email, confirm email, phone number, and passport copy / ID for Egyptians)**
 - **IF the page opened directly from the recommended accommodation without entering data in the search bar, same data from the search bar should be requested to be entered (check-in/ out dates, no. of people).**
 - **IF the page opened as a result of the search process the booking data (the data entered to the search bar previously are shown in the page.**
 - **“Confirm my booking” button takes to the next step**
- Please add to the “**Confirm my booking**” button the functions of opening a new screen/page that includes the following (summary of the booking details)
 1. **Booking data** (place name, location, check-in/ out dates, no. of nights, and no. of people)
 2. **Total price** (price per night x no. of nights)

3. **Add Terms and conditions/cancellation policy** - about two lines with check box (like this_□) **the user should click** before move to the payment process.
 4. **Add “confirm & Pay” button** at the end of the screen that takes to the next step.
- **“confirm & Pay” button opens “Payment methods” page/screen** that includes;
 - a. Add different payment options, **visa, master card, PayPal** the user can **select from** (see the picture below)
 - b. Add Cards’ details screen (see the picture below)
 - c. Add for each Payment the function of sending a **confirmation email with receipt** to the user’s email (Product description, Qty., receipt no., date paid, payment method, Libertad name and logo, user’s name etc.)

➤ **Tours/Packages/libertad’s special tours pages**

*** The following comments are valid for the **Tours/Packages/libertad’s special tours pages**

1. Sites and Monuments => this part should open a new page that has information and pictures about the site and monuments.
2. Add the option **“Add to the cart”** or heart icon like this is  for each tour (in addition to the book option). Its function is for allowing the user to **add many items** to the cart and continue shopping from the website, Then pay them **All** and **with one PAYMENT step**, as well as delete unwanted products/tours.
3. The Items that added to the cart takes the user to the booking step to fill in the needed data.
4. Please apply the following sequence (4 steps) of **“booking & Payment process”** for **ALL the tours** in the website under the pages (**Tours/Packages/libertad’s special tours**).

- ❖ **Book button** => Add the function, (once the user click the Book button a new screen/ page opens with the following:
 1. Select the date (the user select from a calendar)
 2. No. of travelers (the user enters number).
 3. Select Optional Extras (this question is a **multi-selection**, it is a list of items the user can **select more than one item and enter the Qty.** Example:

<input type="checkbox"/> item xxx 10 USD	Qty. <input style="width: 40px;" type="text"/>
<input type="checkbox"/> item xxx 20 USD	Qty. <input style="width: 40px;" type="text"/>
<input type="checkbox"/> item xxx 30 USD	Qty. <input style="width: 40px;" type="text"/>
 4. **Total price** is calculated (total tour price per person X no. of people) + optional extras price X Qty.)
 5. Add **“Continue with my Booking”** button at the end of this screen.
- **“Continue with my Booking”** button => add the function of opening a **new** page/screen titled **“Travelers details”** includes the following:
 - ✓ **Section 1 - Your details** 1) first name, 2) family name, 3) Nationality, 4) email 5) confirm email 6) phone number 7) passport photocopy.
 - ✓ **Section 2 – Travelers details** (*see the below picture*)
 - Traveler 1 Add fields for entering 1) first name, 2) family name, 3) date of birth 4) passport photocopy.
 - Traveler 2 Add fields for entering 1) first name, 2) family name, 3) date of birth 4) passport photocopy
 - **Number of travelers depends on the data entered in the booking step.
 - ✓ Add at the end **“Confirm my booking”** button

Traveller Details

Please enter the names of all passengers as per exact details on your passports. Also select the room type each of you would like while on tour.

- **"Confirm my booking" button** => add the function of opening a new screen opens includes:
(summary of the booked tour)
 - a) **Tour data** (tour name, cities, duration, number of people, included items , and optional extras that added)
 - b) **Total price** (total tours price + total optional extras items).
 - c) **Terms and conditions/cancellation policy** – (three lines with check box (like this_☐) the user should click before move to the payment process.
 - d) Add at the end of the screen **"Confirm & Pay" button**
- **"Confirm & Pay" button** => add the function of opening a new screen or page titled **"Payment methods"** that includes; (see the below picture)
 - 1. Add different payment options, **visa, master card, PayPal** the user can **select from**
 - 2. Add Cards' details screen

3. Add for each Payment a **confirmation email with receipt** that will be sent to the user email from traveler details. (Product description, Qty., receipt no., date paid, payment method, Libertad name and logo, person name etc.)

The screenshot shows a web browser window with the address bar displaying "spoke-london.com". The page title is "Payment method" and a sub-header states "All transactions are secure and encrypted." Below this, there are two main payment options. The first option is "Credit card", which is selected and accompanied by logos for VISA, Mastercard, and American Express. It includes four input fields: "Card number" (with a lock icon), "Cardholder name", "MM / YY", and "CVV" (with a question mark icon). The second option is "PayPal", which is unselected and accompanied by logos for VISA, Mastercard, American Express, and PayPal. The form is presented in a clean, modern style with a light gray background.

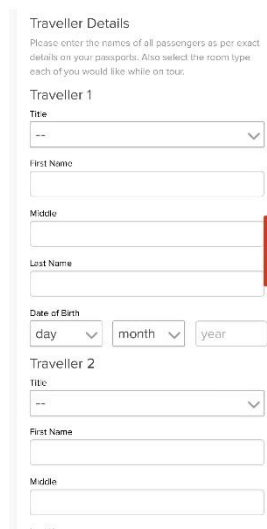

➤ **Daily Activities page**

1. Add the option “**Add to the cart**” or heart icon like this is  for each tour (in addition to the book option). Its function is for allowing the user to **add many items** to the cart and continue shopping from the website, Then pay them **All** and at once, as well as delete unwanted products/tours.
1. Please add for the **Book** option, (once the user click **Book** a screen opens with) the following questions that are requested to be **filled in**:
 - a. Select the date (from a calendar)
 - b. Select time (time-list of the activity’s schedule)
 - c. No. of people
 - d. **Total price** is calculated (total activity price per person X no. of people).
 - e. “**Continue with my Booking**” button at the end of this screen.
2. Please add to “**Continue with my Booking**” button a **new screen** opens with the following questions that are requested to be **filled in**:
 - a) **Enter your details** 1) first name, 2) family name, 3) Nationality, 4) email 5) confirm email 6) phone number 7) passport (photocopy).
 - b) **Enter Travelers details** (*see the below picture*)

Traveler 1 Add fields for entering 1) first name, 2) family name, 3) date of birth 4) passport (photocopy).

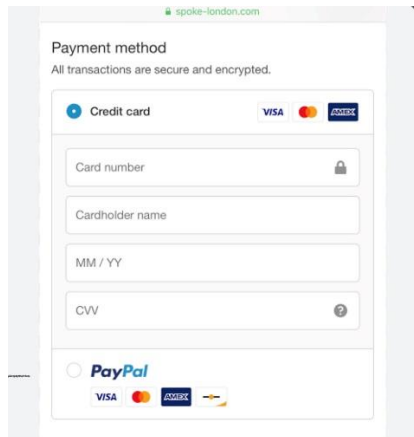

Traveler 2 Add fields for entering 1) first name, 2) family name, 3) date of birth 4) passport (photocopy)

****Number of travelers depends on the data entered in the booking step**
 - c) Add “**Confirm my booking**” button at the end of this page/screen

4. Please add to “**Confirm my booking**” button a new page/screen **includes** the following data:
 - **Booking data** (activity name, date, time, number of people)
 - **Total price** (activity price per person X no. of people).

- **Terms and conditions/cancellation policy** - about two lines with check box (like this_□) the user should click before move to the payment process.
 - **“Confirm & Pay” button** at the end of the screen, and opens “payment methods” page.
5. **“confirm & Pay” button** => add the function of opening a new screen or page titled **“Payment methods”** that includes;
- Add different payment options, **visa, master card, PayPal** the user can **select from**
 - Add Cards’ details screen (*see the below picture*)
 - Please consider that for each Payment a **confirmation email with receipt** that will be sent to the user email from traveler details. (Product description, Qty., receipt no., date paid, payment method, Libertad name and logo, person name etc.).

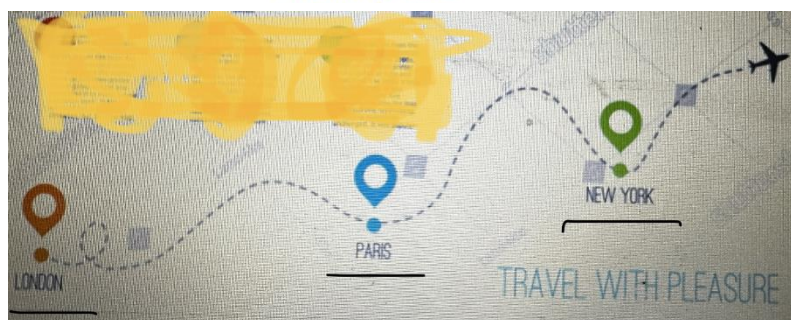

6. Please remove the part of sites and monuments, No need for it here.

➤ **Home page – Travel your way**

Ready to Tailor your trip =>

- Please confirm that the **database** of this part will be the **cities tour from (0.2 Tour)**. So travel your way is planning a **new tour** that is **tours combination** form **city tours** section, defined according to the user answers and selections.
 - Please confirm that the system will **plan full trip based on the entered data from the questions part**. Cities, and trip duration the user will enter, while the system will order the cities and number of days in each city, and the transportation between cities based on the system database.
 - **For Q4: “What transportation do you prefer between cities?”**
 - a. The answer of this question is **Car / Train /Airplane** (the user can select more than one choice).
 - b. All the selected transportation will be used by the system for cities’ transportations.
 - c. Add for the option **Airplane**, note that (flights tickets are NOT included in the price).
 - Please add to the questions a **calendar** titled **“Trip start date”**, so the user can select the trip date.
 - Please consider a **map notification for the cities** the user has selected (this step is during entering the data).
 - Please add to the button **“Plan your Trip”** a **function of opening a new page** contains a **summary of the planned tour** based on the data entered/selected by the user and the system.
- ❖ **The new page of the Summary** includes the following **sections (point 1 to 8)**
1. Page title **“Travel your way”**
 2. **Tour trail => Cities sequence** i.e. Start city, end city, and in-between cities example: *(similar to the below pictures)*

Cairo | Alexandria | Sharm Al Sheik | Mount Sinai & St. Catherin

3. **Tour's info.** => these data is from the user's answers
 - Start date:
 - End date
 - Tour duration: ex. 5 days / 4 nights
 - No. of Travelers:
 - No. of days in **each city** : ex. Cairo 2days/1 night, Alexandria 3days/2 nights
(calculated by the system)
 - Transportation between cities: ex. Cairo to Alexandria by car, Alexandria to Sharm by car (calculated by the system)
4. **Tour included => ex.**
 - Airport pick-up & drop-off
 - 5 star hotel accommodation
 - Entrance fees to all the mentioned sites
 - Professional Egyptologist Multi-Lingual tour guide
 - Meals: Breakfast, Lunch & Dinner.
 - Domestic flight ticket
 - Mineral water on board the vehicle during the tours.
 - Private vehicles, Modern, Air-Conditioned.
5. **Tour Price** => (calculated by the system)
6. **Terms and conditions /cancellation policy**=> about two/three lines with check box (like this ☐) the user should click before move to the next page.
7. **Confirm & continue** button => at the end this button opens a **new page/screen** for entering the **Travelers' details**.
8. **"Back"** function that allow the user to go back to the previous page and edit/update the answers of the questions

○ The **new** page/screen titled **"Travelers details"** includes the following:

- ✓ **Section 1 - Your details** 1) first name, 2) family name, 3) Nationality, 4) email 5) confirm email 6) phone number 7) passport photocopy.
- ✓ **Section 2 – Travelers details** (see the below picture)
 - Traveler 1 Add fields for entering 1) first name, 2) family name, 3) date of birth 4) passport photocopy.
 - Traveler 2 Add fields for entering 1) first name, 2) family name, 3) date of birth 4) passport photocopy
 - **Number of travelers depends on the data entered in the booking step.
- ✓ Add at the end **"Confirm & Pay"** button that opens the **payment page**.

- **“Confirm & Pay” button** => opens a new screen or page titled **“Payment methods”** that includes;
 - Add different payment options, **visa, master card, PayPal** the user can **select from**
 - Add Cards’ details screen (*see the below picture*)
 - Please consider that for each Payment a **confirmation email with receipt** will be sent to the user email (Product description, Qty., receipt no., date paid, payment method, Libertad name and logo, person name etc.).

The screenshot shows a web form titled "Payment method" with the URL "spoke-london.com" at the top. Below the title, it says "All transactions are secure and encrypted." There are two main sections: "Credit card" and "PayPal". The "Credit card" section is active and contains four input fields: "Card number", "Cardholder name", "MM / YY", and "CVV". The "PayPal" section is below it and includes the PayPal logo and logos for Visa, Mastercard, and American Express.

➤ **Cart page**

1. Please add a notification for the cart once the user add any item to the cart.
2. Please change the card detail - expiration MM/YY to be number input.
3. The Items that added to the cart takes the user back to the booking step to fill in the needed data of each item
4. Shipping item will be for products & tools only. The tours has no shipping cost

➤ **Pricing and payment process**

1. Please note that the user can pay the products by two ways; 1) directly by clicking on the **Book** button that takes to confirmation and payment process and 2) add the product to the cart by clicking **“add to the cart”** button or  icon which collect many products in the cart while the user shop from the website, then the user go to the cart and pay them **All** and with **one PAYMENT step**, as well as delete unwanted products/tours from there.
2. Payment methods could be by credit or debit cards, PayPal with the option of selecting the proper method for the user how to pay as mentioned above.

3. The pricing of the following products – libertad's special tour – city tours- packages will have special formula for price discount depending on the no. of travelers (more travelers less price).

➤ General notes

- “**Back**” function that allow the user to go back to the previous page and edit/update the answer is needed in the website generally.
- The Website open on phones differently, NOT all the sections are presented.
- Please consider that the background color of the sub- screens are matched with the website colors (not white/blank color)
- Please ensure that the **cells format** of the sub-screens are match with the **cell title** (example; phone number accepts only numbers, Qty. accepts only numbers, email accepts only letters etc.)
- Please add an option that saves the steps of booking and confirmation in case the user want to finish the process later or the website closed suddenly.
- **For Libertads' special tours** => Please remove the (-) from the title “**Libertad special tours**”.
- **For Products & tools page** => please consider that other products will be added to the page not only papyrus and camping tools, therefore consider more categories in the page design.
